

Why Trinity?

Considering where your child will attend school is one of the most significant decisions you will make as a parent. You can expect Trinity to differ from other schools in many ways, such as better discipline, higher academic achievement, lower teacher-student ratio, and greater commitment from teachers. But the real distinction is that we proclaim Jesus Christ. We are confident that our program of academic studies wrapped into the spiritual understandings and practical applications of living, will provide you with what is most needed for your child's education.

Christian Principles

Our desire is to grow and foster strong Christian leaders who are difference makers in their families, communities and in their world. Our students have weekly scripture verses to memorize, follow our integrity ladder and participate in weekly chapel.

Worship at Trinity is not confined to the daily classroom devotion or to whole-school worship services, but occurs throughout the day. Students are helped to grow in their prayer lives, learning to pray privately and corporately whenever needs or opportunities arise.

Service to others is an important component in Christian leadership. Our students have a monthly servant event where they focus on the needs of others outside of school and recognize the value of putting someone else's needs before their own. Service becomes a natural part of school life. Students are led to help others, not only in the school, but also in the community and the world.

Fellowship is enjoyed by all members of the school community. Students and staff accept one another as fellow members of the body of Christ. Teachers and students work together to maintain a classroom atmosphere of love and joy.

Frequently Asked Questions

Q: Is financial aid available?

A: Our goal is to never turn away a family due to the inability to pay the full tuition amount. Financial aid awards are kept confidential.

Q: What percentage of the student body is not Lutheran? We are not Lutheran. Will our beliefs be honored as well?

A: Presently, our student population is approximately 70% non-Lutheran and 30% Lutheran. At Trinity we welcome families of other Christian denominations who can enter into a "partnership of faith" and support the focus of a Christ centered learning environment. We believe such a commitment and participation enriches our school.

HIGH SCHOOL

Devoted education.

Train a child in the way he should go, and when he is old he will not turn from it.

Proverbs 22:6

Everyday Excellence

Teaching Staff

Every teacher at Trinity Lutheran High School is highly qualified and has a teaching credential. They attend continuing education seminars and classes and are men and women of faith and integrity. Each teacher has been hired on the basis of his or her academic qualifications and biblical beliefs. Because of our modified block schedule, teachers teach in their specialty area and are passionate about the subject they share with students.

Accreditation

Trinity is accredited by the National Association of Accredited Schools (NAAS) and the National Lutheran School Association (NLSA) and recently received a rating of "SCHOOL-EXEMPLARY STATUS" meaning Trinity (PreK through grade 12) is a "school of choice in the community." Being an accredited school has many advantages, but the most important meaning for parents is that students' credits transfer to other schools.

This is only true for accredited schools and not all private schools are accredited. This is such an important question for parents to ask as they are evaluating private schools! As part of the accreditation process, we are required to keep the NLSA informed about our school and are required to file annual reports with them. It is a lengthy process, but it is certainly worth the time and effort as we strive to have our students receive the best Christ-centered education possible.

At Trinity, our focus is presenting challenging academics in a safe and caring Christian environment where faith is integrated in the learning process, giving children the foundation necessary to continue their education and to proceed in the life-long process of Christian service. When you enroll at Trinity, you not only enroll in a school, you enter into a partnership with us.

High School

Individual attention and independence

High school students with advisor approval can choose to split their time between Trinity, online courses, electives at a public high school, or take advanced courses at COCC. Of course, for the families who prefer, a full academic schedule can also be taken on the Trinity campus.

Students who wish to take a limited schedule at Trinity and complete the rest of their coursework on another campus, may register and pay tuition for individual classes. Please see the director of admissions for details.

Core classes are 80 minute periods taught by a specialty teacher who is passionate about their subject area.

Our curriculum is written to meet and exceed state standards.

Extras

High school students have the opportunity to step up as leaders and make their high school experience all that it can be. This year students participated in volleyball, Solar Car, Digital Photography, Photoshop, yearbook, Art Experience, Culinary Arts, Science Careers, Teaching Assistant, Child Development, handbells and took a leadership role in the spring Musical Production. They had dances, field trips, made wonderful friends, worked hard, learned lots, and worshiped God freely! It was a great year!

Dream Big

Parents want the best for their child, and school is a big part of the equation. High School in the proper setting can provide the foundation necessary for academic success in college and beyond. By enrolling your child at Trinity, you are providing your child with necessary skills in a safe and caring environment.

Cutting Edge Technology

As other schools cut programs, we understand how important it is for your child to have an education that will get them a competitive edge as they make their way to college and beyond. Preparing students for real world challenges necessitates the use of versatile technology to help improve academic achievement.

In addition to the interactive SMART boards they have in their classrooms, we provide all of our high school students an Acer Aspire® netbook computer to use throughout their years at Trinity. The technology is more engaging to students and gives them the opportunity to take notes and study and prepare homework more efficiently while providing them with immediate feedback from teachers on testing results.

Be Confident... Be Prepared
